SonicWALL Security Services for E-Class NSA Products

Product		Part Numbers	Description
Comprehensive Gateway Security Suite		For NSA E5500 (2 Years/3 Years) 01-SSC-9229/01-SSC-9236 For NSA E6500 (2 Years/3 Years) 01-SSC-9228/01-SSC-9235 For NSA E7500 (2 Years/3 Years) 01-SSC-9227/01-SSC-9234 For NSA E8500 (2 Years/3 Years) 01-SSC-8951/01-SSC-8952 For NSA E8510 (2 Years/3 Years) 01-SSC-9275/01-SSC-9276 <i>Note: TotalSecure solutions ship with one year of CGSS included</i>	SonicWALL Comprehensive Gateway Security Suite (CGSS) combines E-Class security, productivity and support in a single solution. Available on all E-Class NSA Series appliances, it is the perfect solution for turning your customers' SonicWALLs into total security and productivity platforms. The Comprehensive Gateway Security Suite is available in one, two and three-year subscriptions that include the following: <ul style="list-style-type: none"> Gateway Anti-Virus, Anti-Spyware and Intrusion Prevention Service and Application Intelligence Content Filtering Service Premium Edition E-Class Support 24x7 ViewPoint Reporting Software
E-Class Support 24x7		E-Class Support 24x7 SKUs by product E-Class Support 24x7 available on E-Class solutions only Discounted two- and three-year contracts available Note: Support is required with all E-Class NSA appliances	For customers who need continued protection through ongoing firmware updates and advanced technical support, SonicWALL E-Class Support 24x7 delivers the support features and quality of service that organizations require to keep their networks running smoothly and efficiently. Includes: <ul style="list-style-type: none"> Direct access to a team of highly-trained Senior Support Engineers Annual subscription to software and firmware updates and upgrades Advance Exchange hardware replacement in the event of failure Annual subscription to SonicWALL Service Bulletins and access to electronic support tools
Gateway Anti-Virus, Anti-Spyware, Intrusion Prevention Service and Application Intelligence, Control and Visualization		For NSA E5500 (2 Years/3 Years) 01-SSC-6139/01-SSC-6155 For NSA E6500 (2 Years/3 Years) 01-SSC-6138/01-SSC-6154 For NSA E7500 (2 Years/3 Years) 01-SSC-6137/01-SSC-6153 For NSA E8500 (2 Years/3 Years) 01-SSC-8941/01-SSC-8942 For NSA E8510 (2 Years/3 Years) 01-SSC-9266/01-SSC-9267	Available on SonicWALL E-Class NSA Series appliances, SonicWALL Gateway Anti-Virus, Anti-Spyware, Intrusion Prevention Service and Application Intelligence, Control and Visualization integrates gateway anti-virus, anti-spyware and intrusion prevention to deliver intelligent, real-time network security protection against a comprehensive array of dynamic threats including viruses, spyware, worms, Trojans and software vulnerabilities such as buffer overflows, as well as peer-to-peer and instant messenger applications, backdoor exploits, and other malicious code.
Enforced Client Anti-Virus and Anti-Spyware		5-user License (1 Year) 01-SSC-2743 10-user License (1 Year) 01-SSC-2740 25-user License (1 Year) 01-SSC-2745 50-user License (1 Year/2 Year) 01-SSC-2741/01-SSC-2746 100-user License (1 Year/2 Year) 01-SSC-2742/01-SSC-2747	SonicWALL Enforced Client Anti-Virus and Anti-Spyware provides comprehensive protection with little administrative overhead. McAfee-based anti-virus and anti-spyware policies are automatically enforced network-wide whenever new threats appear. <ul style="list-style-type: none"> Comprehensive virus and spyware protection using a single integrated client Automated enforcement of virus and spyware protection policies Automated deployments of anti-virus and anti-spyware definition and software updates Full featured email attachment filtering
Comprehensive Anti-Spam Service Note: Recommended for up to 250 users.		For NSA E5500 (2 Years/3 Years) 01-SSC-9010/01-SSC-9011 For NSA E6500 (2 Years/3 Years) 01-SSC-9013/01-SSC-9014 For NSA E7500 (2 Years/3 Years) 01-SSC-9016/01-SSC-9017 For NSA E8500 (2 Years/3 Years) 01-SSC-9019/01-SSC-9020 For NSA E8510 (2 Years/3 Years) 01-SSC-9278/01-SSC-9279	SonicWALL Comprehensive Anti-Spam Service adds powerful enterprise-class protection that can immediately improve network performance by eliminating spam, phishing and viruses from entering your network. With just one mouse click, you can enable advanced cloud-based inbound SMTP protection based on the same technology as in SonicWALL's award-winning line of Email Security software and appliances. Effective enough to be your primary anti-spam solution, or use in front of any existing anti-spam product as a first touch to reduce bandwidth consumption and improve security.
Virtual Assist		Up to 1 Technician 01-SSC-5967 Up to 5 Technicians 01-SSC-5974 Up to 10 Technicians 01-SSC-5971 Up to 25 Technicians 01-SSC-5972	SonicWALL® Virtual Assist is a remote support tool that enables a technician to assume control of a customer's PC or laptop for the purpose of providing remote technical assistance. With the customer's permission, the technician can gain instant access to a computer using a Web browser, making it easy to diagnose and fix a problem remotely without the need for a pre-installed "fat" client.
Content Filtering Service Premium Edition		For NSA E5500 (2 Years/3 Years) 01-SSC-7338/01-SSC-7345 For NSA E6500 (2 Years/3 Years) 01-SSC-7337/01-SSC-7344 For NSA E7500 (2 Years/3 Years) 01-SSC-7336/01-SSC-7343 For NSA E8500 (2 Years/3 Years) 01-SSC-8944/01-SSC-8945 For NSA E8510 (2 Years/3 Years) 01-SSC-9269/01-SSC-9270	SonicWALL Content Filtering Service Premium Edition for the E-Class NSA Series enhances protection and productivity for businesses and schools by employing an innovative rating architecture utilizing a dynamic database of URLs, IPs and domains to block over 50 categories of objectionable Web content. An easy-to-use management interface provides network administrators with greater control to transparently enforce acceptable use policies.
ViewPoint <i>Note: Also available as a Virtual Appliance</i>		For E-Class NSA Series 01-SSC-2901	SonicWALL® ViewPoint™ is an easy-to-use Web-based reporting tool that provides administrators with instant insight into the health of their network including both performance and security. Using a customizable dashboard and a variety of historical reports, SonicWALL ViewPoint helps organizations track network utilization, monitor security activity and view Web usage.
Global Management System <i>Note: Also available as a Virtual Appliance</i>		5-node License 01-SSC-7680 10-node License 01-SSC-3363 25-node License 01-SSC-3311	The SonicWALL® Global Management System (GMS™) provides organizations, distributed enterprises and service providers with a flexible, powerful and intuitive solution to centrally manage and rapidly deploy SonicWALL firewall, anti-spam, backup and recovery, and secure remote access solutions. SonicWALL GMS also provides centralized real-time monitoring, and comprehensive policy and compliance reporting.

SonicWALL Security Services for NSA Series Products

Product		Part Numbers	Description
Comprehensive Gateway Security Suite		For NSA 240 (2 Years/3 Years) 01-SSC-9245/01-SSC-9246 For NSA 2400/MX (2 Years/3 Years) 01-SSC-9232/01-SSC-9239 For NSA 3500 (2 Years/3 Years) 01-SSC-9231/01-SSC-9238 For NSA 4500 (2 Years/3 Years) 01-SSC-9230/01-SSC-9237 For NSA 5000 (2 Years/3 Years) 01-SSC-9242/01-SSC-9243 <i>Note: TotalSecure solutions ship with one year of CGSS included</i>	SonicWALL Comprehensive Gateway Security Suite (CGSS) combines security, productivity, reporting and support in a single, low-cost solution. Available on all NSA Series appliances, it is the perfect solution for turning your customers' SonicWALLs into total security and productivity platforms. The Comprehensive Gateway Security Suite is available in one, two and three-year subscriptions that include the following: <ul style="list-style-type: none"> ▪ Gateway Anti-Virus, Anti-Spyware and Intrusion Prevention Service and Application Intelligence ▪ Content Filtering Service Premium Edition ▪ Dynamic Support 24x7 ▪ ViewPoint Reporting Software
Dynamic Support 8x5 and 24x7		Dynamic Support 8x5 SKUs by product Dynamic Support 24x7 SKUs by product Discounted two- and three-year contracts available	For customers who need continued protection through ongoing firmware updates and advanced technical support, SonicWALL Dynamic Support Services delivers the support features and quality of service that organizations require to keep their networks running smoothly and efficiently. These services include: <ul style="list-style-type: none"> ▪ Annual subscription to software and firmware updates and upgrades ▪ Access to telephone and Web-based support for installation, configuration and troubleshooting help ▪ Advance exchange hardware replacement in the event of failure ▪ Annual subscription to SonicWALL Service Bulletins and access to electronic support tools
Gateway Anti-Virus, Anti-Spyware, Intrusion Prevention Service and Application Intelligence, Control and Visualization		For NSA 240 (2 Years/3 Years) 01-SSC-6163/01-SSC-6164 For NSA 2400/MX (2 Years/3 Years) 01-SSC-6142/01-SSC-6158 For NSA 3500 (2 Years/3 Years) 01-SSC-6141/01-SSC-6157 For NSA 4500 (2 Years/3 Years) 01-SSC-6140/01-SSC-6156 For NSA 5000 (2 Years/3 Years) 01-SSC-6160/01-SSC-6161	SonicWALL Gateway Anti-Virus, Anti-Spyware, Intrusion Prevention Service and Application Intelligence, Control and Visualization integrates gateway anti-virus, anti-spyware and intrusion prevention to deliver intelligent, real-time network security protection against a comprehensive array of dynamic threats including viruses, spyware, worms, Trojans and software vulnerabilities such as buffer overflows, as well as peer-to-peer and instant messenger applications, backdoor exploits, and other malicious code.
Enforced Client Anti-Virus and Anti-Spyware		5-user License (1 Year) 01-SSC-2743 10-user License (1 Year) 01-SSC-2740 25-user License (1 Year) 01-SSC-2745 50-user License (1 Year/2 Year) 01-SSC-2741/01-SSC-2746 100-user License (1 Year/2 Year) 01-SSC-2742/01-SSC-2747	SonicWALL Enforced Client Anti-Virus and Anti-Spyware provides comprehensive protection with little administrative overhead. McAfee-based anti-virus and anti-spyware policies are automatically enforced network-wide whenever new threats appear. <ul style="list-style-type: none"> ▪ Comprehensive virus and spyware protection using a single integrated client ▪ Automated enforcement of virus and spyware protection policies ▪ Automated deployments of anti-virus and anti-spyware definition and software updates ▪ Full featured email attachment filtering
Comprehensive Anti-Spam Service <i>Note: Recommended for up to 250 users.</i>		For NSA 240 (2 Years/3 Years) 01-SSC-6163/01-SSC-6164 For NSA 2400/MX (2 Years/3 Years) 01-SSC-6142/01-SSC-6158 For NSA 3500 (2 Years/3 Years) 01-SSC-6141/01-SSC-6157 For NSA 4500 (2 Years/3 Years) 01-SSC-6140/01-SSC-6156 For NSA 5000 (2 Years/3 Years) 01-SSC-6160/01-SSC-6161	SonicWALL Comprehensive Anti-Spam Service adds powerful enterprise-class protection that can immediately improve network performance by eliminating spam, phishing and viruses from entering your network. With just one mouse click, you can enable advanced cloud-based inbound SMTP protection based on the same technology as in SonicWALL's award-winning line of Email Security software and appliances. Effective enough to be your primary anti-spam solution, or use in front of any existing anti-spam product as a first touch to reduce bandwidth consumption and improve security.
Virtual Assist		Up to 1 Technician 01-SSC-5967 Up to 5 Technicians 01-SSC-5974 Up to 10 Technicians 01-SSC-5971 Up to 25 Technicians 01-SSC-5972	SonicWALL® Virtual Assist is a remote support tool that enables a technician to assume control of a customer's PC or laptop for the purpose of providing remote technical assistance. With the customer's permission, the technician can gain instant access to a computer using a Web browser, making it easy to diagnose and fix a problem remotely without the need for a pre-installed "fat" client.
Content Filtering Service Premium Edition		For NSA 240 (2 Years/3 Years) 01-SSC-7342/01-SSC-7349 For NSA 2400/MX (2 Years/3 Years) 01-SSC-7341/01-SSC-7348 For NSA 3500 (2 Years/3 Years) 01-SSC-7340/01-SSC-7347 For NSA 4500 (2 Years/3 Years) 01-SSC-7339/01-SSC-7346 For NSA 5000 (2 Years/3 Years) 01-SSC-7351/01-SSC-7352	SonicWALL Content Filtering Service Premium Edition for the NSA Series enhances protection and productivity for businesses and schools by employing an innovative rating architecture utilizing a dynamic database of URLs, IPs and domains to block over 50 categories of objectionable Web content. An easy-to-use management interface provides network administrators with greater control to transparently enforce acceptable use policies.
UTM SSL VPN		1-user License 01-SSC-8629 5-user License 01-SSC-8630 10-user License 01-SSC-8631 25-user License 01-SSC-8632 50-user License 01-SSC-8633	SSL VPN on SonicWALL NSA Series UTM appliances uses NetExtender technology to provide seamless and secure access to any resource on the corporate network from a variety of client platforms. NetExtender is a lightweight client that is pushed onto the user's machine and is installed and configured automatically, requiring no interaction. NetExtender can be installed as a light weight client on Windows, Linux and OS X providing fast and easy remote access from virtually anywhere.
Global Management System <i>Note: Also available as a Virtual Appliance</i>		5-node License 01-SSC-7680 10-node License 01-SSC-3363 25-node License 01-SSC-3311	SonicWALL® Global Management System (GMS™) provides organizations, distributed enterprises and service providers with a flexible, powerful and intuitive solution to centrally manage and rapidly deploy SonicWALL firewall, anti-spam, backup and recovery, and secure remote access solutions. SonicWALL GMS also provides centralized real-time monitoring, and comprehensive policy and compliance reporting.

SonicWALL Security Services for TZ Series Solutions

Product		Part Numbers	Description
Comprehensive Gateway Security Suite		For TZ 180 Series Unrestricted Node (1 Year) 01-SSC-6895 For TZ 180 Series 10 and 25 Node (1 Year) 01-SSC-6892 For TZ 170/190 Series Unrestricted Node (1 Year) 01-SSC-5844 For TZ 170 Series 10 and 25 Node (1 Year) 01-SSC-5845 For TZ 100 Series (1 Year) 01-SSC-9256 For TZ 200 Series (1 Year) 01-SSC-9253 For TZ 210 Series (1 Year) 01-SSC-9247 <i>Note: TotalSecure solutions ship with one year of CGSS included</i>	SonicWALL Comprehensive Gateway Security Suite (CGSS) combines security, productivity, reporting and support in a single, low-cost solution. Available on all TZ Series appliances, it is the perfect solution for turning your customers' SonicWALLs into total security and productivity platforms. The Comprehensive Gateway Security Suite is available in one, two and three-year subscriptions that include the following: <ul style="list-style-type: none"> Gateway Anti-Virus, Anti-Spyware and Intrusion Prevention Service Content Filtering Service Standard Edition (TZ 180/190) or Premium Edition (TZ 100/200/210) ViewPoint Reporting Software Dynamic Support 24x7 Discounted two- and three-year contracts available
Gateway Anti-Virus, Anti-Spyware and Intrusion Prevention Service		For TZ 180 Series Unrestricted Node (1 Year) 01-SSC-6915 For TZ 180 Series 10 and 25 Node (1 Year) 01-SSC-6912 For TZ 190 Series (1 Year) 01-SSC-5751 For TZ 100 Series (1 Year) 01-SSC-6171 For TZ 200 Series (1 Year) 01-SSC-6168 For TZ 210 Series (1 Year) 01-SSC-6165	Available on SonicWALL TZ Series appliances, SonicWALL Gateway Anti-Virus, Anti-Spyware and Intrusion Prevention Service integrates gateway anti-virus, anti-spyware and intrusion prevention to deliver intelligent, real-time network security protection against a comprehensive array of dynamic threats including viruses, spyware, worms, Trojans and software vulnerabilities such as buffer overflows, as well as peer-to-peer and instant messenger applications, backdoor exploits, and other malicious code. Discounted two- and three-year contracts available
Enforced Client Anti-Virus and Anti-Spyware		5-user License (1 Year) 01-SSC-2743 10-user License (1 Year) 01-SSC-2740 25-user License (1 Year) 01-SSC-2745 50-user License (1 Year/2 Year) 01-SSC-2741/01-SSC-2746 100-user License (1 Year/2 Year) 01-SSC-2742/01-SSC-2747	SonicWALL Enforced Client Anti-Virus and Anti-Spyware provides comprehensive protection with little administrative overhead. McAfee-based anti-virus and anti-spyware policies are automatically enforced network-wide whenever new threats appear. Discounted two- and three-year contracts available <ul style="list-style-type: none"> Comprehensive virus and spyware protection using a single integrated client Automated enforcement of virus and spyware protection policies Automated deployments of anti-virus and anti-spyware definition and software updates Full featured email attachment filtering
Comprehensive Anti-Spam Service Note: Recommended for up to 250 users.		For TZ 100 Series (2 Years/3 Years) 01-SSC-8986/01-SSC-8987 For TZ 200 Series (2 Years/3 Years) 01-SSC-8989/01-SSC-8990 For TZ 210 Series (2 Years/3 Years) 01-SSC-8992/01-SSC-8993	SonicWALL Comprehensive Anti-Spam Service adds powerful enterprise-class protection that can immediately improve network performance by eliminating spam, phishing and viruses from entering your network. With just one mouse click, you can enable advanced cloud-based inbound SMTP protection based on the same technology as in SonicWALL's award-winning line of Email Security software and appliances. Effective enough to be your primary anti-spam solution, or use in front of any existing anti-spam product as a first touch to reduce bandwidth consumption and improve security.
Virtual Assist		Up to 1 Technician 01-SSC-5967 Up to 5 Technicians 01-SSC-5974 Up to 10 Technicians 01-SSC-5971 Up to 25 Technicians 01-SSC-5972	SonicWALL® Virtual Assist is a remote support tool that enables a technician to assume control of a customer's PC or laptop for the purpose of providing remote technical assistance. With the customer's permission, the technician can gain instant access to a computer using a Web browser, making it easy to diagnose and fix a problem remotely without the need for a pre-installed "fat" client.
Content Filtering Service Premium Business Edition		For TZ 150/170/180/190 Series (1 Year) 01-SSC-5650 For TZ 100 Series (1 Year) 01-SSC-8637 For TZ 200 Series (1 Year) 01-SSC-8634 For TZ 210 Series (1 Year) 01-SSC-7371	SonicWALL Content Filtering Service Premium Edition enhances protection and productivity for businesses and schools by employing an innovative rating architecture utilizing a dynamic database of URLs, IPs and domains to block over 50 categories of objectionable Web content. An easy-to-use management interface provides network administrators with greater control to transparently enforce acceptable use policies. Discounted two- and three-year contracts available
ViewPoint <i>Note: Also available as a Virtual Appliance</i>		For TZ Series 01-SSC-2901	SonicWALL® ViewPoint™ is an easy-to-use Web-based reporting tool that provides administrators with instant insight into the health of their network including both performance and security. Using a customizable dashboard and a variety of historical reports, SonicWALL ViewPoint helps organizations track network utilization, monitor security activity and view Web usage.
Global Management System <i>Note: Also available as a Virtual Appliance</i>		5-node License 01-SSC-7680 10-node License 01-SSC-3363 25-node License 01-SSC-3311	The SonicWALL® Global Management System (GMS™) provides organizations, distributed enterprises and service providers with a flexible, powerful and intuitive solution to centrally manage and rapidly deploy SonicWALL firewall, anti-spam, backup and recovery, and secure remote access solutions. SonicWALL GMS also provides centralized real-time monitoring, and comprehensive policy and compliance reporting.
Dynamic Support 8x5 and 24x7		Dynamic Support 8x5 SKUs by product Dynamic Support 24x7 SKUs by product Discounted two- and three-year contracts available	For customers who need continued protection through ongoing firmware updates and advanced technical support, SonicWALL Dynamic Support Services delivers the support features and quality of service that organizations require to keep their networks running smoothly and efficiently. These services include: <ul style="list-style-type: none"> Annual subscription to software and firmware updates and upgrades Access to telephone and Web-based support for installation, configuration and troubleshooting help Advance exchange hardware replacement in the event of failure

WAN Acceleration

Product	WXA 2000	WXA 4000
Part Numbers	01-SSC-9440 (Includes 1 Year of Dynamic Support 24x7) 01-SSC-9449 (Dynamic Support 24x7 1 Year) 01-SSC-9450 (Dynamic Support 24x7 2 Years) 01-SSC-9451 (Dynamic Support 24x7 3 Years)	01-SSC-9442 (Includes 1 year of Dynamic Support 24x7) 01-SSC-9452 (Dynamic Support 24x7 1 Year) 01-SSC-9453 (Dynamic Support 24x7 2 Years) 01-SSC-9454 (Dynamic Support 24x7 3 Years)
Market Positioning and Specific Features	The SonicWALL® WAN Acceleration Appliance (WXA) 2000 significantly enhances WAN application performance and improves the end user experience for small- to medium-sized organizations with remote and branch offices. After initial file transfer, the WXA 2000 dramatically reduces all subsequent traffic by transmitting only new or changed data across the network. Unlike standalone products, the WXA 2000 is an integrated hardware appliance add-on to SonicWALL E-Class NSA, NSA and TZ firewalls, thus simplifying deployment, configuration, routing and management. When deployed in conjunction with SonicWALL Application Intelligence and Control, the WXA 2000 offers the unique combined benefit of both prioritizing application traffic and minimizing traffic between sites. The WXA 2000 accelerates network performance for up to 120 users and 600 WAN optimization flows	The SonicWALL® WAN Acceleration Appliance (WXA) 4000 significantly enhances WAN application performance and improves the end user experience for small- to medium-sized organizations with remote and branch offices. Wireless Solution Enablers

Product	SonicPoint-Ni, SonicPoint-Ne and SonicPoint-N Dual-Radio Access Points	Power over Ethernet (PoE) Injector
Part Numbers	SonicPoint-Ni Dual-Band Bundle with PoE Injector 01-SSC-8576 SonicPoint-Ni Dual-Band Bundle without PoE Injector 01-SSC-8589 (4-pack) SonicPoint-Ne Dual-Band Bundle with PoE Injector 01-SSC-8578 SonicPoint-Ne Dual-Band Bundle without PoE Injector 01-SSC-8591 (4-pack) SonicPoint-N Dual-Radio Bundle with PoE Injector 01-SSC-9290 SonicPoint-N Dual-Radio Bundle without PoE Injector 01-SSC-9292 (4-pack)	01-SSC-5544 (802.3af Gigabit-N) 01-SSC-5545 (802.3at Gigabit-N)
Market Positioning and Specific Features	<p>Compliant with the IEEE 802.11n standard, the SonicPoint-Ni, SonicPoint-Ne and SonicPoint-N Dual-Radio are dependent access points that provide secure wireless LAN connectivity to users on the network. Includes:</p> <ul style="list-style-type: none"> Automatic provisioning from TZ, NSA and E-Class NSA Series Appliances* Support for multiple security options (WPA, WPA2, WEP, SSL VPN, IPSec) Support for up to 8 distinct SSIDs with distinct security policies using Virtual Access Points (VAP)** Multiple input, Multiple output technology (MIMO) IEEE 802.3af/at Power Over Ethernet receive capability*** Detachable antennas (SonicPoint-Ne and SonicPoint-N Dual-Radio only) Controllable LEDs (power excluded) and a plastic cover for LEDs and the logo for discreet installations such as hospital rooms Wall or Ceiling Mountable <p>* SonicPoint-Ni/SonicPoint-Ne requires SonicOS 5.6.0.3 or greater. SonicPoint-N Dual-Radio-N requires SonicOS 5.8 or greater. ** Available on the NSA 240/2400/3500/4500/5000/E5500/E6500/E7500/E8500 running SonicOS 5.8 or greater *** SonicPoint-Ni and SonicPoint-N Dual-Band access points support PoE power only. SonicPoint-Ne Dual-Radio access points can also be powered directly through an AC adapter</p>	<p>The SonicWALL PoE Injector is an IEEE 802.3af/at compliant power injector that detects the presence of PoE-compatible devices and "injects" the appropriate power into the data cable. Includes:</p> <ul style="list-style-type: none"> Remote power feeding IEEE 802.3 compliant Advanced auto-sensing algorithm Interlocking <p><i>Note: SonicPoint-N Dual-Radio requires an 802.3at compliant PoE injector or switch</i></p>

SSL VPN for the Enterprise: SonicWALL Aventail

Product	SonicWALL Aventail SSL VPNs provide granular application access control by first detecting the security of the end point, protecting applications with granular policy based on who the user is and the end point used for access, and then connecting authorized employees and business partners effortlessly from a broad range of cross-platform devices only to authorized resources.				
Key Features	<p>Detect what is running on the end point device.</p> <ul style="list-style-type: none"> ▪ End Point Control provides interrogation of managed and non-managed devices prior to connecting and on a recurring schedule in order to detect the identity of the device and determine the overall trust level ▪ Cache Control purges browser cache, session history, cookies and passwords ▪ Secure Desktop offers advanced data protection technology that creates a virtual encrypted environment that prevents sensitive data from being left behind 		<p>Protect applications with granular access control based on user identity and device integrity.</p> <ul style="list-style-type: none"> ▪ Policy Zones provide administrators with the ability to easily create allow, deny and quarantine zones that govern access for all users and devices based on device identity and device integrity ▪ Unified Policy is the enforcement engine for protecting corporate resources, consolidating control of all Web resources, file shares and client/server resources in a single location, ensuring users only access authorized applications ▪ Virtual Assist allows for remote help desk and troubleshooting functions to be supported directly from the SonicWALL Aventail appliance. Administrators can set up a "Request Assistance" button on WorkPlace, where users can request help from the organization's help desk and then the help desk can then request control of the user's device for troubleshooting purposes. 		<p>Connect users easily and securely to applications across all device types.</p> <ul style="list-style-type: none"> ▪ WorkPlace Portal provides users with a personalized and policy-driven Web portal providing easy access to Web and client/server applications from virtually any device or location ▪ Smart Access dynamically determines and deploys the appropriate access methods and end point interrogation within the WorkPlace portal based on the type of device used as well as user-level permissions ▪ Connect Tunnel provides the same end point control and access control options as the WorkPlace portal, with the only difference being that the user instead launches an agent directly from their device versus launching a portal ▪ Connect Mobile provides secure access to client/server and Web based applications from Windows Mobile PDAs and Smartphones

Add-On Features (Optional)	<p>SonicWALL Virtual Assist is a remote support tool that enables a technician to assume control of a customer's Windows, Mac or Linux-based PC or laptop for the purpose of providing remote technical assistance. With the customer's permission, the technician can gain instant access to a computer using a Web browser, making it easy to diagnose and fix a problem remotely without the need for a pre-installed "fat" client.</p>	<p>SonicWALL Virtual Access is a remote PC control tool that enables authorized end users to gain secure remote access to their unattended Windows-based computers from anywhere. Users simply need to install the Virtual Access agent onto a Windows PC with Internet access and, as long as that PC has a connection to the SonicWALL SSL VPN, the user can connect to that PC from anywhere with an Internet connection.</p>	<p>Virtual Assist/Virtual Access</p> <ul style="list-style-type: none"> Up To 1 Concurrent Technician: 01-SSC-5967 Up To 5 Concurrent Technicians: 01-SSC-5974 Up To 10 Concurrent Technicians: 01-SSC-5971 Up To 25 Concurrent Technicians: 01-SSC-5972  
	<p>SonicWALL Web Application Firewall (WAF) Service applies reverse proxy analysis of Layer 7 traffic against known signatures, denies access upon detecting Web application malware, and redirects users to an explanatory error page. SonicWALL WAF detects attacks such as Cross-Site Scripting (CSS), SQL Injection, Cross-Site Request Forgery (CSRF) and cookie tampering, to help attain PCI compliance. By preventing theft of credit card and SSN information, SonicWALL WAF can achieve Data Leak Protection (DLP). WAF custom rule chains provide the extra flexibility to follow positive or negative security model to detect custom pattern in HTTP(S) traffic. In addition to custom rules, Application Profiling can help monitor web traffic to build a dynamic model of protected applications and help suggest custom rules based on the same.</p>  	<ul style="list-style-type: none"> SRA 1200 Add-On Web Application Firewall (1 Year): 01-SSC-8877 SRA 1200 Add-On Web Application Firewall (2 Years): 01-SSC-8878 SRA 1200 Add-On Web Application Firewall (3 Years): 01-SSC-8879 SRA 4200 Add-On Web Application Firewall (1 Year): 01-SSC-6055 SRA 4200 Add-On Web Application Firewall (2 Years): 01-SSC-6066 SRA 4200 Add-On Web Application Firewall (3 Years): 01-SSC-6067 SRA Virtual Appliance Add-On Web Application Firewall (1 Year): 01-SSC-9185 SRA Virtual Appliance Add-On Web Application Firewall (2 Years): 01-SSC-9186 SRA Virtual Appliance Add-On Web Application Firewall (3 Years): 01-SSC-9187

SonicWALL Security Solutions

Email Security -- In 3 Easy Steps:

Step 1: Appliance or Software

Software Platform

SonicWALL Email Security Software is for the organizations that desire an email security solution to run on their existing Windows 2003 or 2008 Server system.

Software – 01-SSC-6636

System Requirements – OS: Windows Server 2003 Server or 2008 Server; CPU: 2.66 GHz min.; RAM: 2 GB recommended; Hard Drive: 40 GB free space min.

Virtual Appliance Platform – 01-SSC-7636

For organizations that desire an email security solution to run in a vmWare environment. System Requirements: vmWare ESXi™ and ESX™ (version 4.0 and newer); Allocated Memory 2 GB; Appliance Disk Size 80 GB.

Appliance Platforms

SonicWALL Email Security Appliances come with the SonicWALL Email Security software pre-installed.

New Appliance Models

Model ESA 3300 – 01-SSC-6607

2 GB RAM, 250 GB hard drive, Intel 2.0 GHz CPU

Model ESA 4300 – 01-SSC-6608

4 GB RAM, 2x 250 GB hard drive (RAID-1), Intel Dualcore 2.13 GHz CPU

Model ESA ES8300 – 01-SSC-6609

4 GB RAM, 4x750 GB HDD (RAID-5), Quadcore 2 GHz CPU

More Appliance Models

Model ESA 300 – 01-SSC-6601

1 GB RAM, 80 GB hard drive, 2.66 GHz CPU

Model ESA 500 – 01-SSC-6603

1 GB RAM, 2x80 GB HD (RAID-1), 2.66 GHz CPU

Model ESA ES6000 – 01-SSC-6604

2 GB RAM, 2x160 GB HD (RAID-1), 3.2 GHz CPU

Step 2: Add Email Protection

This required subscription activates features in the SonicWALL Email Security (SES) system, Appliance or Software, for up to the number of users purchased. This subscription comes with either 8x5 or 24x7 Dynamic Support services.

Features

SonicWALL Email Protection subscription with Dynamic Support (8x5 or 24x7) provides threat protection for SonicWALL Email Security Software or Appliances. Includes:

- Anti-Spam, Anti-Phishing & Anti-Virus automatic updates from the SonicWALL GRID Network
- Software and firmware updates
- Phone-based support (8x5 or 24x7), Web-based support anytime
- RMA for the appliance - One (1) year warranty for repair or replacement of any defective product due to manufacturer's defects

User Packs

	8 x 5 Support	24 x 7 Support
25 user pack	01-SSC-6659	01-SSC-6669
50 user pack	01-SSC-6660	01-SSC-6670
100 user pack	01-SSC-6666	01-SSC-6676
250 user pack	01-SSC-6661	01-SSC-6671
500 user pack	01-SSC-6667	01-SSC-6677
750 user pack	01-SSC-6662	01-SSC-6672
1,000 user pack	01-SSC-6668	01-SSC-6678
2,000 user pack	01-SSC-6663	01-SSC-6673
5,000 user pack	01-SSC-6664	01-SSC-6674
10,000 user pack	01-SSC-6716	01-SSC-6730

User Packs can be quantity stacked to obtain the desired number of users for a given subscription, i.e. 75 users = 50 user pack + 25 user pack.

Step 3: Add Optional Protection

There are three optional subscriptions which can be added to SonicWALL Email Security systems. The number of users must be the same as the Email Protection subscription.

Email Compliance Subscription

Includes: Compliance Dictionaries, Attachment Scanning, Approval Boxes, Record ID matching, Archiving, Encryption and compliance reports

25 user pack	01-SSC-6639
50 user pack	01-SSC-6640
100 user pack	01-SSC-6646
250 user pack	01-SSC-6641
500 user pack	01-SSC-6627
750 user pack	01-SSC-6642
1,000 user pack	01-SSC-6648
2,000 user pack	01-SSC-6643
5,000 user pack	01-SSC-6644
10,000 user pack	01-SSC-6735

Anti-Virus Subscriptions

Includes: McAfee and/or Kaspersky signature updates, SonicWALL Time-Zero Anti-Virus and Zombie detection

	McAfee	Kaspersky
25 user pack	01-SSC-6759	01-SSC-6769
50 user pack	01-SSC-6760	01-SSC-6770
100 user pack	01-SSC-6766	01-SSC-6776
250 user pack	01-SSC-6761	01-SSC-6771
500 user pack	01-SSC-6767	01-SSC-6777
750 user pack	01-SSC-6762	01-SSC-6772
1,000 user pack	01-SSC-6768	01-SSC-6778
2,000 user pack	01-SSC-6763	01-SSC-6773
5,000 user pack	01-SSC-6764	01-SSC-6774
10,000 user pack	01-SSC-7562	01-SSC-7565

SonicWALL Email Security for Microsoft Windows Small Business Server (SES for SBS)

Product	Part Numbers	Description
SES for SBS	SES for SBS - 1 Server + 25 User (1 Yr) 01-SSC-7600 SES for SBS - Renewal/Upgrade - 25 User (1 Yr) 01-SSC-7610	SonicWALL® Email Security for Microsoft Small Business Server (SES for SBS) provides award-winning email protection for both inbound and outbound email. SES for SBS is specifically designed to install directly on the SBS hardware server and stops over 98% of spam.

CDP Series

Product	CDP 210	CDP 220	CDP 5040B	CDP 6080B
Part Numbers	01-SSC-9309	01-SSC-9315	01-SSC-9316	01-SSC-9317
Market Positioning and Specific Features	<p>The SonicWALL® Continuous Data Protection (CDP) 210 is designed to be used in small, remote or branch offices for multiple workstation and server backup and provides a usable capacity of up to 1.7 TB (at a standard 2:1 compression ratio). Powered by SonicWALL's next-generation CDP 6.0 firmware, it delivers the comprehensive data protection organizations demand and the power administrators need for vigilant data backup and disaster recovery. With granular, globally enforced policy controls over the entire backup operation, business-relevant data assets are automatically preserved and protected against loss from file, device, and location based disasters. A sophisticated new fileset backup methodology combined with agent-based data de-duplication speeds the backup process and optimizes bandwidth usage while maintaining total information continuity and the ability to flexibly restore multiple revisions across Windows®, Linux® and Mac OS® platforms.</p>	<p>The SonicWALL® Continuous Data Protection (CDP) 220 is designed to be used in small, remote or branch offices and distributed environments for multiple workstation and server backup and provides a usable capacity of up to 3.4 TB (at a standard 2:1 compression ratio). Powered by SonicWALL's next-generation CDP 6.0 firmware, it delivers the comprehensive data protection organizations demand and the power administrators need for vigilant data backup and disaster recovery. With granular, globally enforced policy controls over the entire backup operation, business-relevant data assets are automatically preserved and protected against loss from file, device, and location based disasters. Scalable up to 20 TB (at a standard 2:1 compression ratio), the CDP 6080B can be deployed as an upstream unit in a site-to-site data backup environment or provide local backup for multiple workstation and server applications. Powered by SonicWALL's next-generation CDP 6.0 firmware, it delivers the comprehensive data protection organizations demand and the power administrators need for vigilant data backup and disaster recovery. With granular, globally enforced policy controls over the entire backup operation, business-relevant data assets are automatically preserved and protected against loss from file, device, and location based disasters. A sophisticated new fileset backup methodology combined with agent-based data de-duplication speeds the backup process and optimizes bandwidth usage while maintaining total information continuity and the ability to flexibly restore multiple revisions across Windows®, Linux® and Mac OS® platforms.</p>

Product	CDP Site-to-Site Service	CDP Offsite Service	CDP 6080B 4-Disk Pack Upgrade Kit	CDP Microsoft Applications License	CDP Server/Workstation Licenses
Part Numbers	01-SSC-6480/3	Available in 1-Yr Subscription	01-SSC-9301	01-SSC-9318	01-SSC-9381 Server Agent 01-SSC-9383 Laptop/Desktop Agent
Market Positioning and Specific Features	<p>SonicWALL CDP Site-to-Site Backup is an offsite backup and recovery solution that securely sends business critical data from one CDP appliance located in a primary site to another CDP appliance located in a secondary site over the Wide Area Network (WAN) or Local Area Network (LAN) for disaster recovery (DR) protection. Only the latest version of data required for DR is securely transmitted and encrypted with AES 256-bit encryption technology during data transmission and data at-rest for maximum security from cyber threats. This feature enables organizations to be fully operational quickly after a disaster event.</p>	<p>The CDP Offsite Service provides an offsite backup and recovery solution that stores the data in a secure data center, enabling enterprises to be up and running quickly after a disaster event. All data is securely transmitted and encrypted with an AES 256-bit encryption key. IT Administrators can recover the data through an easy-to-use interface in the event the CDP unit at the local level is not viable.</p> <p>5GB of Yearly Offsite Storage - 01-SSC-6340 10GB of Yearly Offsite Storage - 01-SSC-6341 25GB of Yearly Offsite Storage - 01-SSC-6344 50GB of Yearly Offsite Storage - 01-SSC-6347 75GB of Yearly Offsite Storage - 01-SSC-6348 100GB of Yearly Offsite Storage - 01-SSC-6349</p>	<p>The SonicWALL CDP 6080B 4-Disk Pack Upgrade Kit consists of 4 additional drives that can be added to the CDP 6080B to bring the total usable capacity up to 20 TB (at a standard 2:1 compression ratio).</p> <p>Once the License Key for this additional SKU is inserted into the system, the additional 10 TB of capacity (at a standard 2:1 compression ratio) becomes available for use.</p>	<p>The CDP Microsoft Applications License can be used for backup and recovery of one supported Microsoft application such as Exchange, SQL, SharePoint, Active Directory or Small Business Server Standard or Premium. This license supports all Microsoft applications that come as a standard configuration for Small Business Server.</p> <p>Example: In a standard configuration, if the appliance enables protection for one Microsoft application, purchase additional quantities of the SKU to increase the number of supported Microsoft applications required for the backup environment. The SKU is stackable up to the maximum number of applications and servers supported per the appliance model.</p>	<p>The CDP Server License can be used for backup and recovery of one supported Windows®, Mac OS® and Linux® File Server. Example: In a standard configuration, if the appliance enables protection for one (1) File Server, purchase additional quantities of the SKU to increase the number of File Servers required for the backup environment.</p> <p>The CDP Workstation License can be used for backup and recovery of 10 supported Windows® and Mac OS® workstations. Example: In a standard configuration If the appliance enables protection for ten (10) workstations, purchase additional quantities of the SKU to increase the number of workstations required for the backup environment.</p>

SonicWALL

Bare Metal Recovery

SonicWALL

Bare Metal Recovery

SonicWALL

Bare Metal Recovery

Product	Recovery Manager for Exchange	Bare Metal Restore/Local Archiving - Server	Bare Metal Restore w/Universal Restore - Enterprise Server	Bare Metal Restore/Local Archiving - Workstation
Part Numbers	01-SSC-9380	01-SSC-6390	01-SSC-6496	01-SSC-6391
Market Positioning and Specific Features	<p>SonicWALL® Recovery Manager for Exchange makes discovering and recovering business-critical Exchange data fast and easy. Recovery Manager saves money by eliminating the need for a dedicated recovery server. It helps save time by performing fast searches based on sender, recipient, date, subject, message keyword or attachment keyword. In addition, it helps save critical data by granularly searching backed-up attachment content, public folders and public folder hierarchies in Exchange and Lotus® Domino.</p> <p>Key Features:</p> <ul style="list-style-type: none"> Multiple data source recovery supports multiple public folders, multiple mailboxes, and PSTs—all from a single interface. Support for third-party backup software enables searching native Microsoft backups and most major third-party backups including CA® ARCserve, CA BrightStor, EMC® Legato NetWorker, HP® Data Protector, IBM® Tivoli Storage Manager, Microsoft Data Protection Manager, Veritas® Backup Exec, and Veritas NetBackup. 	<p>SonicWALL Bare Metal Recovery/Local Archiving software creates an exact image of an entire server - including the operating system files, programs, databases, and settings, enabling the recovery of an entire system in minutes. Customers can also explore their bare metal archives to recover individual files and folders using Windows' familiar drag-and-drop file copying operation. Moreover, its wizard-driven graphical user interface (GUI) is easy-to-use, making it an ideal application for even novice PC users.</p> <p>Key Features:</p> <ul style="list-style-type: none"> Instant bare-metal recovery and local archiving Restoration of individual files and folders from archived images Easy to use Windows, XP-like wizard interface. Support for SAN, NAS, RAID, CD/DVD, USB, IEEE1394, SCSI and other backup storage Support for all operating systems, including: Windows 2003 Server, Windows 2000 Advanced Server, Windows 2000 Server, Windows NT4.0 Server SP6 	<p>SonicWALL Universal Restore is an add-on module for SonicWALL Bare Metal Recovery Server Edition software which allows recovery of server system state images to dissimilar physical or virtual hardware regardless of make, model, or installed components. SonicWALL Universal Restore prepares you for even the most unforeseen events so that no matter what type of disaster you're recovering from, so long as you have an image, you can restore it.</p> <p>Key Features:</p> <ul style="list-style-type: none"> Disaster recovery - restore a disk image to either identical or dissimilar hardware Physical and Virtual Server restoration - (Physical to Physical, Physical to Virtual, Virtual to Virtual or Virtual to Physical) Easy-to-use wizard-driven interface Support for BartPE and WinPE pre-installation environments 	<p>SonicWALL Bare Metal Recovery/Local Archiving software creates an exact image of an entire system - including the operating system, applications and all user data, or an individual disk partition, enabling the recovery of an entire system in minutes. Customers can also explore their bare metal archives to recover individual files and folders using Windows' familiar drag-and-drop file copying operation. Moreover, its wizard-driven graphical user interface (GUI) is easy-to-use, making it an ideal application for even novice PC users.</p> <p>Key Features:</p> <ul style="list-style-type: none"> Instant bare-metal recovery and local archiving Restoration of individual files and folders from archives images Easy-to-use Windows, XP-like wizard interface. Support for SAN, NAS, RAID, CD/DVD, USB, IEEE1394, SCSI and other backup storage Support for workstation operating systems: Win98, 2000 Professional, ME, XP, NT4.0 workstation SP6

Universal Management Appliance (UMA)

Product	E-Class UMA EM5000	How to Purchase														
Part Numbers	01-SSC-7665 Includes 10 node GMS Software License and 1-year Hardware Warranty															
Market Positioning and Specific Features	<p>The SonicWALL® E-Class Universal Management Appliance (UMA) EM5000 centralizes policy management, monitoring and reporting for multiple SonicWALL appliances. The EM5000 provides an easier way to configure, enforce and manage policies for SonicWALL firewall, anti-spam, backup and recovery, and secure remote access solutions, enhancing efficiency, availability, and ROI. The EM5000 simplifies and automates multi-level policy management, monitoring, and compliance reporting thereby reducing overhead and freeing resources for new revenue opportunities. The UMA EM5000 is ideal for deployments scaling from a few to thousands of SonicWALL appliances or services, in small-to-mid-enterprise, large enterprise, managed service provider, or IT consulting environments. Includes:</p> <ul style="list-style-type: none"> Unified policy management Comprehensive monitoring and automated alerting Custom and template-based reporting Centralized logging for deep forensic analysis and remediation Secure, reliable and optimized hardware architecture Intuitive management dashboard Online and offline management capabilities High-availability services across multiple sites Web services, SNMP, and CLI based integration options 	<ol style="list-style-type: none"> Purchase appliance Add additional GMS node licenses as needed using the existing GMS software SKUs Add Support <ul style="list-style-type: none"> Use existing GMS software support SKUs Use existing Comprehensive GMS Support SKUs Use new hardware warranty SKUs <p>Example: 60 Node Deployment</p> <table border="1"> <thead> <tr> <th>SKU</th> <th>Description</th> <th>Comments</th> </tr> </thead> <tbody> <tr> <td>01-SSC-7665 Quantity: 1</td> <td>Universal Management Appliance EM5000 with 10 Node GMS Software License</td> <td>Base Hardware: comes with 10 nodes and includes one year of hardware warranty</td> </tr> <tr> <td>01-SSC-3301 Quantity: 2</td> <td>GMS 25 Node Software Upgrade</td> <td>Increase node license by 50 to a total of 60</td> </tr> <tr> <td>01-SSC-6514 Quantity: 1</td> <td>GMS E-CLASS 24x7 Software Support for 10 Nodes (1 Year)</td> <td rowspan="2">Support SKUs for the 60 software nodes provide support for the entire deployment, including the Appliance</td> </tr> <tr> <td>01-SSC-3334 Quantity: 2</td> <td>GMS E-CLASS 24x7 Software Support for 25 Nodes (1 Year)</td> </tr> </tbody> </table>	SKU	Description	Comments	01-SSC-7665 Quantity: 1	Universal Management Appliance EM5000 with 10 Node GMS Software License	Base Hardware: comes with 10 nodes and includes one year of hardware warranty	01-SSC-3301 Quantity: 2	GMS 25 Node Software Upgrade	Increase node license by 50 to a total of 60	01-SSC-6514 Quantity: 1	GMS E-CLASS 24x7 Software Support for 10 Nodes (1 Year)	Support SKUs for the 60 software nodes provide support for the entire deployment, including the Appliance	01-SSC-3334 Quantity: 2	GMS E-CLASS 24x7 Software Support for 25 Nodes (1 Year)
